Agreement for Use of the National Longitudinal Mortality Study Public Use Data

Through the support of its sponsors, the National Longitudinal Mortality Study (NLMS) has developed a public-use data set for the use of interested researchers. It has been developed for research purposes and may provide results suitable for publication. To avoid a duplication of research efforts and to encourage cooperation among investigators, the NLMS, on behalf of its sponsors, is coordinating the distribution of these data. Consequently, you are asked not to loan or give the file, or a copy of it, to other investigators. Should you prepare a research paper for publication, we request that you send us a copy of the manuscript for information and coordination purposes only. We will review the paper and provide any comments that we have based on our experience with the data set.

The following statement should be included in any publication which uses data derived from this public-use file:

"This paper uses data obtained from the public-use file of the National Longitudinal Mortality Study. The file is provided to persons interested in research by the U.S. Census Bureau. The views expressed in this paper are those of the authors and do not necessarily reflect the views of the National Longitudinal Mortality Study, the Bureau of the Census, or the project sponsors: the National Heart, Lung, and Blood Institute, the National Cancer Institute, the National Institute on Aging, and the National Center for Health Statistics."

To request a public-use file, complete the information requested in the lower sections of this form and FAX the completed form, or email it as an attachment or PDF, using one of the contact addresses below. The file will be shipped on a CD with accompanying documentation. The file is easily readable by most commonly used statistical software packages. To address correspondence and manuscripts, please also use one of the following options:

Norman J. Johnson
U.S. Bureau of the Census
4600 Silver Hill Road
CARRA, Room 6H023
Suitland, MD 20746

Telephone: 301-763-4270
FAX: 301-763-6234
E-mail: norman.j.johnson@census.gov

Investigator's Name, Affiliation, Address, Telephone Number, FAX number and email address:

Mengying Li, University of Miami

3000 SW 3rd Ave, APT 314, Miami, Florida, 33129

Tel: 305 3945318 email: mxl169@miami.edu

Specific Areas of Interest (This information will be used to inform other investigators of active work on this data set):

Extrapolation method on data analysis

I agree to the above conditions for use of the NLMS Public-use file:
